NO END

To the Schley Investigation is Yet in Sight in Washington.

The Admiral is Contradicted

By Captain Chadwick Who Says That Admiral Schley Did Not Get the Precautionary Dispatch in Regard to Attacking Shore Batteries.

Special by Wire to Times-Democrat.

Washington, Nov. 1.—There seems to be no end of the Schley case in sight. The arguments will begin Monday and are expected to consume three or four days.

No Warning Sent.

In the Schley inquiry this morning, Lemly reported the receipt of a letter from Lieut. Harlow who said that he found nothing in his private diary regarding the message Schley says he sent to Sampson on July 2, warning Sampson of the Spanish showing unusual activity in the harbor. Lemly has also searched the navy department for the signal book supposed to contain this record, but without success.

Ready to Swear.

Stanford M. Scovel, correspondent at the hospital said Sigsbee stopped a forward boat he was on, off Santiago. Sigsbee did not reply in answer to correspondent's question that the Spanish were not in Santiago. Scovel says he was ready to swear that Sigsbee did not say to him that the Spanish were not in Santiago. "The impression on our boat was," said Scovel, "That the Spanish were already in Santiago. This was before Sigsbee had communication with Schley."

Court Adjourns.

The Schley court of inquiry has adjourned until Monday.

WITNESSES IN REBUTTAL

Have Been Called in Great Numbers by the Prosecution.

Washington, Nov. 1.—In the Schley court of inquiry a number of witnesses were introduced by Judge Advocate Lemly to testify in rebuttal of the evidence given in Admiral Schley's behalf. The court decided that no witnesses could be introduced at this stage of the proceeding to give testimony on immaterial points. On the other hand, the court held that it was not bound by the ordinary proceedings in civil issues as to the time when testimony can be taken, and that witnesses might be called or recalled any time for the purpose of making additions to former statements, but that none of them could reiterate testimony previously given. This decision was rendered on an objection raised by Mr. Rayner to allowing Captain Sigsbee to give new testimony when called as a witness for rebuttal purposes. The witnesses called in rebuttal were: Captain Charles D. Sigsbee, Captain Francis E. Chadwick, Captain Joseph G. Eaton, Lieutenant John H. Roys and Chief Quartermaster Neil Anderson, all of whom testified to incidents connected with the campaign of 1898.

Captain Chadwick said that the precautionary dispatches from the navy department in regard to attacking the Spanish shore batteries had not been communicated to Commodore Schley. This statement is regarded as of great importance by Admiral Schley's opponents, as it distinctly contradicted the admiral's own statements. Captain Sigsbee testified concerning his interview on the Brooklyn with Commodore Schley. Captain Eaton was the commander of the dispatch boat Resolute during the war, and his testimony related largely to events which occurred just before and just after the battle on July 3. Lieutenant Roys served on board the Eagle, and his statement bore upon the Eagle's meeting with the Brooklyn when the latter was en route to Cienfuegos and again while the flagship lay off that port. He stated that Commander Sutherland had asked not to be sent to Port Antonio for coal, and had asked to be allowed to coal from the Merrimac. Mr. Anderson was chief quartermaster of the Brooklyn during the Spanish war and was at the wheel during the battle of July 3. He said that Commodore Schley had given the order of "hard apert," but that when the order was given the vessel was hard aport.

Before these witnesses were introduced for the department the court heard Captain T. S. Borden of the marine corps, who served on the Brooklyn in Admiral Schley's behalf. He was the last of the admiral's witnesses, and he testified that the admiral had borne himself honorably during the battle of July 3.

Serious Freight Collision.

Logansport, Ind., Nov. 1.—Two men were instantly killed and two probably fatally injured in a terrific collision between two freight trains on the Michigan division of the Vandalia, at Judson, Ind., 50 miles south of this city. The dead: Richard Stith, fireman, Logansport; John Ellabarger, brakeman, Terre Haute. Injured: Frank E. Gross, engineer, Logansport; Jim Lawson, conductor, Terre Haute. The accident was due to a collision between an extra freight and a runaway string of cars from another freight train. The runaway cars had traveled 12 miles down grade at a terrific rate of speed when they crashed into the extra freight at Judson. The cars of the runaway were piled in the ditch and the engine of the extra freight was demolished.

Callahan Perjury Case.

Omaha, Nov. 1.—A dozen witnesses were examined in the Callahan perjury trial. Most of the testimony went to show that Callahan had perjured himself by swearing to his whereabouts during the time prior to and immediately following the Cudahy kidnaping. Several witnesses identified Callahan as one of the men who were connected with the dealings for the famous bay pony which was used to deliver the letter to Mr. Cudahy demanding the ransom. Mr. Cudahy's attorney also testified to the ransom payment, and the young man who was kidnaped repeated his testimony and related the imprisonment and other features of the kidnaping.

West Virginia Miners.

Huntington, W. Va., Nov. 1.—Twenty-five of the officials and organizers of the United Mine Workers of America attended the first session of the state miners' convention here. The presence of John Mitchell, president of the United Mine Workers; Vice President Lewis, Secretary-Treasurer Wilson and others of prominence, made the meeting one of more than ordinary importance. The convention consists of more than 150 union miners from Virginia and West Virginia. A permanent organization was effected and the usual committees appointed. A plan for organizing West Virginia will be outlined.

Herr Most Released.

New York, Nov. 1.—John Most, the anarchist, recently sent to the penitentiary for the publication in his paper of an article entitled "Murder vs. Murder," was released in bonds of $1,500. He has been granted a certificate of reasonable doubt.

The report does not apply to druggists selling liquor for medicinal or scientific purposes.

Embezzlement Charged.

Winnipeg, Nov. 1.—Francis Carrier, a merchant of St. Boniface, was arrested charged with defalcation to the amount of $1,600, belonging to the rural municipality of St. Boniface, of which he was treasurer. The arrest was made at the instigation of the Loan and Guarantee Assurance company, surety for Mr. Carrier. The prisoner was lodged in jail.

Predicts No Trouble.

Washington, Nov. 1.—M. Margerie, the charge d'affaires of the French embassy here, had a short interview with Secretary Hay, after which the secretary left at once for the White House. M. Margerie may be considered an expert in matters pertaining to the Levant, having spent several years at Constantinople recently as an attache of the French embassy. He feels confident that there is not the slightest danger of a dissolution of the concordat owing to the action of the French government in sending warships to make a naval demonstration in Turkish waters and to seize a customs port. The other nations parties to the concordat understand the situation perfectly, and, in fact, most of them have grievances and claims themselves like French complaints.

Emperor William's Gift.

Berlin, Nov. 1.—Emperor William has telegraphed the German Protestant community in Shanghai that he will give an altar and windows to the new church there in memory of Baron Von Ketteler, the murdered German minister to China. This gift, his majesty said in the dispatch, would serve as an injunction to be true to Christianity and faithful to the Fatherland unto death. Admiral von Tirpitz, secretary of the navy, in explaining the fact that the head of Baron Von Ketteler's murderer had been brought to Germany on a battleship, says the ship's doctor secured it for pathological purposes.

Reception to Lipton.

London, Nov. 1.—Immediately after his arrival in London Sir Thomas Lipton drove out to his suburban residence, "Osidge," at Southgate. An assemblage of friends and neighbors met him about two miles from the house with a band, unharnessed the horses and drew the carriage home. Responding to an address of welcome presented on behalf of the village of Southgate, he said he had hoped to drink from the cup in Southgate, but it had stuck in spite of a jerk he had given it. "I mean to lift it yet," he said, in concluding his speech.

Purchase of Bonds Resumed.

Washington, Nov. 1.—Reserving the right to discontinue without previous notice, the treasury department announced that for the present it will accept offerings of United States bonds, if tendered at the treasury department in Washington or at the subtreasury in New York, at prices to yield the government interest as follows: On the 3 per cent bonds, loan of 1908-1918; 5 per cent bonds, loan of 1904, and 4 per cent bonds, funded loan of 1907, to yield 1.72, and on the 4 per cent bonds, loan of 1925, to yield 1.906.

Newspaper Man Summoned.

Chicago, Nov. 1. — Judge Elbridge Hanecy of the circuit court issued an order summoning before him Monday morning the owner of the Chicago American, Mr. William R. Hearst, and six employes of the paper, to show cause why they should not be punished for contempt of court. The publication on which this action was taken were news items, editorials and cartoons reflecting on the motives of the judge in a recent decision in which the People's Gas Light and Coke company of this city was interested.

Sighted an Iceberg.

Yarmouth, Isle of Wight, Nov. 1.—During the first night out from St. Johns, while steaming about 15 knots, the Ophir, with the Duke and Duchess of Cornwall, sighted an iceberg directly ahead and about two miles off. The berg was first seen by the cruiser Diadem, which warned the Ophir, and the squadron changed its course and reduced speed. The searchlights showed a pale green mass 100 feet wide, with about 40 feet above water. The Ophir's passage was tempestuous and ended with a gale.

Mayor Sam Jones, of Toledo, who was to have delivered an address on the topic, "What is Crime and Who are Criminals?" sent word that he was unable to come, but the paper he had prepared was forwarded and read by Secretary Byers. Mayor Jones is in a position to handle such a subject with a knowledge of conditions and his views while of a radical nature, and somewhat unique, are worthy of careful consideration. The excellence of the address suggests its publication in full, and it is given as follows:

Principal Ports are Ordered Put in a Condition for Defence

And Mines Have Been Placed in the Dardanelles. Mobilization of Two Army Corps is Ordered.

Special by Wire to Times-Democrat.

Paris, Nov. 1.—It is not true that the French fleet has been recalled from advance on Trukey. The fleet is proceeding to demand French rights. Further the Sultan has decided to defy France and has ordered the defense of Salonica, Smyrna and Mitylene. Mines have been placed in the Dardanelles, and preparatory orders have been issued for the mobilization of two army corps. A Constantinople telegram further states that anti-foreign fanaticism prevails throughout the city.

Treasurer Roberts' Report.

Washington, Nov. 1.—Ellis H. Roberts, treasurer of the United States, in his report of the transactions of his office during the last fiscal year, says that the treasury was never stronger than at the close of that period. The operations, which were of the first order, both in variety and magnitude, resulted in noteworthy changes in the paper currency, as well as a steady and healthful growth of gold in the treasury and in the general stock. The net ordinary revenues for the year were $587,685,337, an increase of $20,444,485 over those of 1900, which were the next highest recorded. The increase came from each of the heads of resources, but chiefly from internal revenue. On the side of the expenditures the total was $509,967,353.

An Act to Punish Treason.

The penalty prescribed for treason is death, and the act is framed to include those persons giving aid and comfort to the insurgents. Persons who utter seditious word or speeches or who write libels against the United States government or the insular government are punishable by the imposition of a fine of $2,000 or to two years' imprisonment. For the breaking of the oath of allegiance a fine of $2,000 or imprisonment for 10 years is fixed as the penalty. Foreigners are placed under the same laws as are Americans and natives. A public discussion of the act will be had Saturday.

Obtaining a search warrant, she went to his house from here with the sheriff, and while the house was being searched she drew a pistol and shot Duffy.

The same amount of first class fresh beef is required as in Montana; health cannot be maintained without an abundance of nutritious food, carefully prepared. The foreign population is these islands and the wealthy natives are just as heavy eaters as Americans; besides they use a great deal of Scotch whisky and red wine."

RETURNED TO TOULON.

French Squadron Did Not Sail For the Levant—A Surprise.

Paris, Nov. 1.—A dispatch from Toulon to The Figaro confirms the report of the return of the entire squadron, and adds that Admiral Caillard's division is still held in readiness to sail at a moment's notice. Editorially The Figaro and other papers express surprise at this perplexing and unexplained move after the dispatch of Admiral Caillard to the Levant had been officially announced. The Marseilles correspondent of The Matin says the return was due to the fact that the squadron was supplied with only two days' rations.

Strength of the Squadron.

Paris, Nov. 1.—The decision to make a naval demonstration against Turkey was taken at a meeting of the cabinet, at which M. Delcasse, the minister of foreign affairs, explained the sultan's procrastination regarding the French demands. Admiral Caillard's squadron consists of the armored cruisers Admiral Pothuau, Chanzy and Latouche Treville, the second-class cruisers Du Chayla and Cassard and the third-class cruiser Galilee. The crews aggregate 2,288 men, but the vessels will also carry landing parties. The newspapers approve the government decision. The Journal des Debats says: "Every one at Constantinople and the other capitals must be aware that France and Russia are in complete accord on this matter."

MESS

Has Been Made of Boer War.

New Ministry

Is Needed to Face the Present Dangers

Which Confront the English People in the African Campaign.

John Marley Delivering a Speech to Constituents at Arbroath, Uses Some Very Sharp Words.

London, Nov. 1.—John Morley, M. P., addressing his constituents at Arbroath, said: "The government is aggravating the essential mischief of the situation in South Africa by their management of the concentration camps. The death rate of children, measure it as you will, is ridiculously excessive and appalling. The policy of devastation has been admitted to be a mistake. I wonder what Lord Palmerston would have said of a government justifying themselves by saying that Russia in Poland and Austria in Bosnia had done something like the same? The war has entirely changed in character and is drifting into a war of extermination of a people fighting for their own land. The king will perhaps at no distant date have to seek other ministers with a better insight and a more pliant mind in face of the dangerous and complex situation which confronts the country."

Buller a Popular Idol.

London, Nov. 1.—General Buller threatens to blossom into a British Boulanger. He does not appear to court privacy or to discountenance demonstrations. He attended a theater in London, and when he was recognized and cheered he rose to his feet and bowed his acknowledgments. Outside of the building General Buller was mobbed by cheering crowds and the police had to be called to clear the street. There is no doubt that a large section of the troops is indignant at the general's dismissal. The Highland light infantry expressed this feeling by removing from the walls of its messroom the portrait of a distinguished field marshal, which was kicked around the barracks, while a portrait of General Buller was carried around the mess in triumph.

Colony of Boers.

Cheyenne, Nov. 1. — A number of Hague bankers and other wealthy men of Holland are making arrangements to establish here a colony of Boers and Holland Dutch in Wyoming. A tract of 300,000 acres has been secured in the valley of the Green river, in Sweetwater county, southern Wyoming. Surveys hav been made for a giant canal and irrigation system, and construction is to be commenced at once. The prospective settlers are now being brought over.

Troops For South Africa.

Aldershot, England, Nov. 1.—It is understood that, as a result of the conclusion arrived by the cabinet, every available effective infantryman here will be sent to the front in South Africa between now and Christmas.

NEWSPAPERARCHIVE®

CITY

(Continued from 1st Page.)

"From the title of my subject you might think that I am about to give you a learned definition of the word crime, or that it was my purpose to name a lot of persons who are known as criminals. I have no such intentions, however, but will say at the outset that I think there are no two words in the English language around which there hangs more of misconception than those two words crime and criminals.

"In my third annual message to the common council of the city of Toledo, written about two years ago, I said that there was reason to believe that our police courts perpetrated more crime than they prevented. Radical and startling as this statement ought to be, there was hardly an indication that attracted passing attention, and yet it was charging an institution that is supposed to be maintained for the prevention with crime with creating crime. More experience and riper judgement have only served to emphasize the conviction that I then held and I find no room to doubt that, under existing conditions today, the chief criminal of all in our United States is a society that tolerates the conditions that exist in our criminal courts.

"I wonder if the full significance of that title is understood. Can it be that it means that they are institutions for the production of crime?

"There are two leading arguments from which I conclude that society has not reached the meridian of civilization, as most of us seem to believe, but, on the contrary, we are yet hardly at the cock crowing. We are in the childhood period of development with respect to the science of government, and so far as the scientific administration of the affairs of the people is concerned. What we have in the name of the government today would be better described by calling it misgovernment. Likewise in the administration of justice, I believe that it would be more nearly the truth to call it in the administration of injustice.

"In the first place I find that the whole idea of dealing out justice through the administration of punishment inflicted upon one man by another man or set of men is absolutely without a leg to stand on—that is, without any foundation in any recognized philosophy of life and relation. For example: Most of us—all of us practically—who uphold the present order and resist the change, believe in the idea of a God, or a center of all life, light and truth, the All Father or our Heavenly Father (as is more commonly said.) Even a child recognizes that this Heavenly Father has provided certain immutable laws for the government of his creatures and that these laws art never altered, amended, suspended or changed; they apply with equal force to all alike. "The soul that sinneth it shall die."

If I put my hand in the fire, I am burned; if I unduly expose myself, I take cold, I contract fevers, pneumonia and consumption; if I overwork I am prostrated; if I attain the ideal from which so many long and reach a condition where I can live an idle, useless life, my muscles become atrophied, my whole body becomes the abiding place of disease; rheumatism, gout, insomnia, nervous prostration and innumerable other fashionable ills torment me day and night. Inevitable penalties are hung like the sword of Damocles ready to fall upon the head of the violater of law, wholly unaided by the thing that we call government, without the help of judge or jury or constable or any sort of policemanization. We find too that these penalties are safeguards of love rather than the inflictions of revenge they are the warning signals set along the wayside of life that guide the unerringly, step by step, to that higher plane towards which we are ever progressing.

Now, is it not, "passing strange" that while we universally admit the truth of all that I have said and we marvel at the wisdom so far beyond the understanding of the greatPlanner who has so lovingly wrought out this wonderful system, yet we somehow seem to think that the human animal has been left without an inward monitor or guide as to his relations to his fellows, and with impious sort of blasphemy we propose to make up for the short comings of the Almighty by the introduction of that sovereign remedy "The Revised Statutes."

Now let me state the truth; it needs no argument: your own soul will witness to the genuineness of it; just as certainly as your hand is burned by fire, just as certainly as any physical penalty will be inflicted by the violation of physical law, just so surely the same power, the same wisdom, the same God has provided a penalty for every infraction, no matter how slight, of the law of just relation between human beings; and the forces that above all others keep our justice mills grinding, that keep the machinery hung together, are these two facts: First—we are following the footsteps that our forefathers trod; we are doing just as grandpa did; we are guided and governed by tradition, superstition, precedent and judge-made laws, much of which—all of which, indeed—has no relation to righteousness. And second—the main business office at this time being to "get a living," to be "respectable," the courts furnish the means of support to a vast army who are expert in these two professions.

"A story is told of a little boy who saw for the first time a public execution, a judicial killing, and the story finely illustrates the absurdity of our devotion to precedent. "What is that?" said the little boy to his father. "A gallows." "What are they going to do there?" "They are going to hang a man." "What are they going to hang him for?" "They think he killed a man." "They think he killed a man," said the little boy in amazement. "Yes," said the father, "they have circumstantial evidence he did." "Who is that on the gallows?" "That is the sheriff, the preacher and the man who is to be hung." "What is the sheriff going to do?" "He is going to hang the man." "What is the preacher going to do?" "He has asked God to save the man's soul." "And will God do it?" "The preacher says He will if the man will believe." And will the man believe?" "The man says he does." "Then God has saved his soul hasn't he?" "The preacher says He has." "Well then that makes him a good man doesn't it?" "The preacher says it does." "Well, then," said the little boy, "what do they want to kill a good man for?" "Oh, I don't know; ask the preacher."

Still we are repeating in a hundred ways this farcical performance all over this land under the "best government on earth" and in the name of justice.

In our system of fines as administered today, we have a continuance of that crowning infamy, imprisonment for debt, and consequently the police courts in all of our cities, instead of being courts of justice, are courts of injustice, their occupation being the persecution of the poor. If we must have revenge under the guise of penalty, I demand on behalf of the lower classes, to whom I belong, that the penalty be according to the provisions of the constitution of the United States—that is, that it be of such a character that it will apply equally to all sorts and conditions of men, and money fines do not so apply.

What a glamor hangs around the words court and judge. They "instruct" the jury; they "enjoin" without jury; they "set aside" the verdict; they fine for "contempt." Is there any class or institution for which the people today have such a genuine contempt as they have for the assumed wisdom and virtue that hang around this class and this institution? I enjoy the distinction of having myself been fined for "contempt." Eminent lawyers of our city tell me that I was not in "contempt" that no possible strain of the imagination could construe what I said or did to be in any manner "contempt" but I replied that it was all the better for my purpose. I stated to the judge who fined me that if I had been a poor man the work house would have been my doom, but because I was able to make five dollars simply by writing my name, offended justice was satisfied and I was permitted to go free.

How long shall we continue this farcical performance? Day by day the cry of the poor goes up from these mills of injustice. They have no money; they have no counsel; and for petty offenses that are not offenses at all when committed by the rich, they are fined, imprisoned, disgraced, degraded. The money of the gambler, the petty thief and the harlot is extorted from them in fines, and from the hire of prostitution we pay the expenses of government. So intent are we in our mad frenzy to stop crime that we have only recently invented that crowning infamy that disgraces our statutes books know as the "Habitual Criminal Act."

Under the operation of this law a person who has been twice convicted of felony and is arrested on that charge a third time, may be tried as an habitual criminal; if convicted he may be sent to the penitentiary for life. To break a till or lock and steal ten cents is a felony. We may easily understand that an unfortunate wretch without money who should be tried under this charge before a splenetic, dyspeptic or gouty judge would be very likely to get the full limit of the law.

I visited the penitentiary at Columbus a few weeks ago and Warden Darby told me that a man was serving life sentence in the penitentiary whose aggregate stealings are less than thirty dollars. Out upon such a ghastly farce as this sort of destruction of souls in the name of justice.

Do not take alarm, I am not going to abolish the courts; I can't, but love will one day abolish them, and judge and jury, sheriff and policeman, warden and guard will find sweet release from their hideous jobs and be permitted to join the great army of useful workers who are co-operating with God to set up a real kingdom of Heaven here and now.

As best I know how, I am striving to point out to a more excellent way; I do not wish to appear as a mere fault-finder. I know that the judges and the great army of court and prison officials are all men, and of the same common clay as I am; that for the most part they are doing the best that they can in the environment in which they are themselves. I believe that the great mass of them, indeed, are highminded men and that the wrongs that are perpetrated by them in the name of justice are due to the superstitions that have clouded the public mind with respect to this subject for centuries; not due to the venality of the individuals. They are simply following the beaten path many times without asking why.

A fighter in the French Revolution was asked why he was fighting where he was found; he replied, "I was born on this side of the barricade." Many of us today can give no better reason for much of our conduct, either public or private, and it is mainly as we point to higher and nobler and holier ideas that there is any hope of improvement. We can see that the gradual process of evolution and by the growth of real education, the social conscience is being awakened. The

Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Keil, of 707 Ninth street, N. W., Washington, D. C., writes as follows: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having it filled twelve times without receiving the slightest benefit, I declined to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism, I decided, almost in despair however, to give the medicine a trial, and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health.

SSS the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

The Shortage In Snails.

Some alarm is expressed by certain Paris epicures because the supply of snails of the finest quality seems to be falling off to a serious extent. This apprehension, however, will cause no distress upon an extended scale, as the taste for the deliberate creature that carries his house upon his back has not been worldwide. In fact, it has never gained much ground outside of the Latin race, and beyond the borders of France itself the number of gourmets who have extolled the snail as a table delicacy of the most desirable sort has not made a long list. But snails are clean feeders. Why should there be anywhere a prejudice against them among the eaters of lobsters and crabs, of soy fed pigs and of the bulging legs of goggle eyed bullfrogs?

THE STAGE.

Keenan—"Grigsby."

Politicians have been unstinted in their praise of Frank Keenan's production of "Hon. John Grigsby" to be seen in this city Saturday evening. The play is historical to a letter, dealing with that notable political period 1849 in Illinois. The schemes of politicians those days were quite as shrewd as those of men in modern times. The clever work in landing the Supreme Court Justice nomination by the political ring-leaders Ogden and Sturges seems particularly timely. Mr. Keenan's work has been accorded nothing but praise.

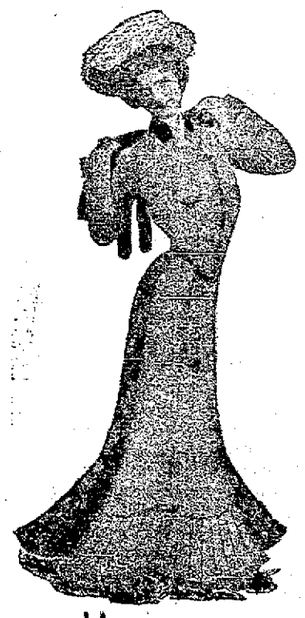

The Fenberg Stock Co.

The return of the famous Fenberg Stock Co., who open a week's engagement next Monday night, will be hailed with delight by those who remember the admirable entertainments provided by this clever organization last spring. Manager Fenberg's company has been strengthened for this season, all plays to be presented are new and the specialties will be a great big feature. The opening bill will be "Master and Slave." The seat sale opens Saturday morning. Special ladies tickets opening night.

THE PASSING OF HANNA.

The frosty manner in which the Republicans of Lima, treated the visit of Senator Hanna to this city yesterday was but little short of absolute cruelty, and it shows unmistakably how unpopular the senior senator is among those persons in Lima who make up the majority of the Republican party. Last Saturday when it was learned that Senator Foraker would be in this city for a few minutes between trains, the word was quietly passed around among the Republicans, and quite a bunch of them went up to the C. H. & D. station to pay their respects to him.

But yesterday Senator Hanna came in and was in this city for a longer period than Foraker was on Saturday, and yet he was absolutely ignored by the Republicans. His private car stood on the siding until 9:30 o'clock, waiting for the west bound train, which was to take him to Van Wert to deliver a speech. The reporter of the TIMES-DEMOCRAT was the only caller the senator had during his stay in this city.

All of which goes to show that the Republicans of Lima believe that Hanna, who was the Samson of the McKinley regime, has been shorn of his locks, and that Foraker is the man to whom aspirants must turn their eyes if they want to get anything off the federal pie counter under the present administration.

Every man in Allen county who favors clean administration of public affairs in Allen county should vote for the entire Democratic county ticket next Tuesday.

MANY PROMISES MADE.

McComb, in making his canvass of the city and county has employed the same tactics that he did in his city campaign for the mayoralty last spring—promising an appointment to every man who wants one. He has promised about 40 different men the appointment to the office of deputy but the wise ones who are on the inside laugh up their sleeves and whisper knowingly that ex-chief of police Jim Hurley is the man slated for the deputyship, and, judging from McComb's record of the many times he has held public office with Jim Harley as his chief second, the whisperings of those on the inside are very well founded. None of McComb's aspirants need worry however, for the only appointments McComb will have to make after next Tuesday will be to fill the vacancies that were created by the city council in the ranks of his police force.

RARE ORATORICAL BIRDS.

Political stump oratory is a curious and interesting study. Statesmen, so-called at least, frequently have a strange method of presenting "arguments" to their hearers.

The oratorical birds are not only of strange feathers, but undergo moulting seasons and come out with new styles of plumage, and you know the bird by his size rather than his color.

Senator M. A. Hanna is a marked instance of this. Take, for instance, his first speech delivered in Springfield and repeated at other points in which he said:

"I denounced Wm. J. Bryan in his own state as a liar, hypocrite, a demagogue and an anarchist. I insist that we shall have decency and avoid personalities in this political campaign, because of the great public sorrow, because of the foul assassination of President McKinley. I went to Nebraska and South Dakota last year for a couple of hides and I got 'em, and left the birds to pick the carcasses. Let us show our respect for our late beloved president by refusing to consider side issues about state affairs, and cast our votes against Kilbourne and anarchy."

And this passes for statesmanship and argument. In the days of Chase, Wade, Sherman, Pugh and Pendleton, it would have passed for almost anything else.

Aundreds of Republicans in all parts of Allen county have declared their intention of voting for E. J. Barr for sheriff next Tuesday. He will give a clean administration and that is what the people of Allen county want.

IMPEACHMENT

Of Labor Leaders Gompers and Mitchell.

Special by wire to Times-Democrat.

Alexandria, Ind., Nov. 1.—A meeting of the Amalgamated Association of Iron and Steel Workers of the Fifth district is to be held at Anderson tomorrow. Shaffer will be present. He has stated that resolutions impeaching Sam Gompers and Mitchell of the Mineworkers Association will be presented, for alleged failure to aid the Amalgamated strike. A secession from the federation of labor will be discussed.

CRITICAL

Condition of Judge Taft Creates Alarm.

Special by Wire to Times-Democrat.

Washington, Nov. 1.—Judge Taft of Ohio, present civil governor of the Philippines, is a very sick man and his condition creates alarm. He has been in the hospital a month with bowel trouble, and underwent an operation. He will probably be given a leave of absence as soon as he is able to travel.

The Awful Corruption of a Republican State.

PENNSYLVANIA'S RIOT OF SHAME.

Votes of Legislators Openly on Sale at Harrisburg—The Infamous Crime of Bribery Permeates the State and Has Become So Common as to Excite Jocular Comment.

In nearly every state there is some corruption of the body politic, but it is a matter of congratulation to Democrats that they can point with pride to how little there is in the states controlled by their party. On the other hand, there is hardly a single Republican state that has not had a scandal connected with the meeting of the legislatures. In some states so notorious is the corruption that, as in Pennsylvania, even Republican newspapers are compelled to denounce it. The utter depravity of the Republican machine can be seen when the Pittsburg Post says:

"No better illustration is available as an object lesson than the bribery and corruption which ran riot in the last legislature of Pennsylvania. It was something awful in its extent and its audacity. Every part of the state has become familiar with the purchase of votes of legislators, the prices paid and the influential character of the men in business and social life who did the buying.

"That is the worst of it. The hiders for votes, with their pockets crammed with bribe money, which they lavishly disbursed, are of the class who should be expected to set a good example and maintain a high standard of public morality. Instead of doing that they do the reverse. They make the most infamous crime fashionable and a matter for jocular remarks rather than the most bitter denunciation possible, followed by criminal prosecution and severe punishment. Between $1,000,000 and $2,000,000 of bribe money was disbursed at Harrisburg last winter and spring by men of prominence who would consider themselves harshly and unjustly assailed if set down as anarchists. But are they not anarchists? The anarchists would destroy all government, but what difference is there between that and corrupting government and making it a reproach and a shame? Republics can be destroyed without the shedding of blood by the power of bribery and corruption.

"It is no surprise to learn that the monstrous example of the carnival of bribery at Harrisburg last winter has established itself in the cities and boroughs of the state and that the price of votes is almost as quotable an article as the price of pork, flour or whisky. We hear remarkable stories of the bribery of councilmen in Pittsburg and Allegheney and in some of the smaller cities and even in the boroughs of the rural districts. If legislators accept bribes for the discharge of their public duties, it is no surprise that the local legislative bodies should do so. Sometimes matters have reached such a pass that they are bribed to do right as well as to do wrong. They have no conscience in the matter, and the ironclad constitutional oath has no more effect than so much waste paper.

"This fearful crime is increasing. If the briberies that are talked of privately could be made public with incontrovertible testimony of the crime, such as exists, a revolution would be created. The bribed rascals who sell their votes are bad enough and should be drummed out of public life and into the seclusion of the penitentiary. But are they the worst of the criminals? Is not the crime of offering bribes by men of standing in business, in the professions and in politics infinitely worse? The people of all parties should arouse themselves to this great peril to our institutions and to the cause of public morality. It is anarchy in its most odious and demoralizing character. The bribed ones are anarchists and the bribers more so, as instructors and tempters on the same highway to perdition."

Pressure on the President.

President Roosevelt is starting in well. He tells the senators and representatives that are importuning him to appoint some of their strikers that only those who have ability and are of unimpeachable character will be appointed. A good many sickly looking faces are seen coming from the White House since this announcement, beginning with Senator Burton of Kansas and Mason of Illinois. Of course the real pressure has not come yet: the politicians are merely feeling their ground. If the president can stick to his civil service resolves, he will have to be more obstinate than a mule and stronger than a horse.

The Clique's Infamy.

The attempt of the navy department officials to insert in the evidence in the Schley case some of the atrocious editorials of the New York Sun is evidence that the Crowninshield gang are using the most infamous means to injure the admiral, and if Admiral Dewey had not put a stop to their machinations the inquiry would degenerate into a "prosecution."

Sulu's Clever Sultan.

The sultan of Sulu is up to a trick or two. He pretended to be sick and would not receive the congressmen visiting the Philippines. He has probably heard of the way they treated the Mormon Roberts, and prefers to enjoy his pension in peace to having any controversy about it.

NO CONCESSION TO CUBA.

The Sugar and Tobacco Trusts Dread Island's Competition.

The beet sugar trust and the tobacco interests have already commenced their war against any concession to Cuba through their trust controlled congressmen. Hepburn of Iowa has set himself squarely against tariff concessions to Cuba, says the Chicago Record-Herald. He speaks primarily for the beet sugar interest, but having committed himself on that ground appeals to the tobacco interests for sympathy. Neither of these interests cares anything about the other, but each dreads the competition of a great Cuban export, and we find them now in a very natural combination.

There is, however, no way in which we could help Cuba so much as by a reduction of the sugar and tobacco duties, and if the people who agree with Mr. Hepburn carry out their policies unimpeded the country will be in a very bad dilemma morally. It has refused Cuba complete liberty and it has shown a disposition not to grant annexation, which would result in free trade. It prefers to keep a hold on the island which puts it completely at its mercy.

Meantime it has been making loud professions of humanitarianism toward Cuba and has emphasized their hollowness by a striking contrast between its treatment of that country and Hawaii. Hawaii, which has a much smaller proportion of whites in its population than Cuba and a much larger proportion of Chinese and Japanese coolies, is admitted to the full rights of an American territory and given a free market for its sugar.

ROOSEVELT AND TRUSTS.

There'll Be Something Doing if He Attempts to Curb Them.

President Roosevelt in his Minneapolis speech, delivered but a few weeks before his accession to the presidency, said: "We shall find it necessary in future to shackle cunning as in the past we have shackled force. The vast individual and corporate fortunes and the vast combinations of capital which have marked the development of our industrial system create new conditions and necessitate a change from the old attitude of the state and nation toward property."

To which the Kansas City Star replies: "These are pointed and direct sentiments inspired by conditions to which no thoughtful and sober minded man can be blind. They are not uttered in any spirit of intemperate agitation or any false alarm for political purposes. They come from an influential member of the party which capital in modern years has regarded as its chosen champion. They do not proceed from a person who has excited the suspicion of the conservative element by the radical character of his opinions."

If President Roosevelt tries to shackle the trusts and corporations, which are all noted for their cunning, he will split the Republican party into two camps. He will have the common people with him, but the Republican politicians will be against him, at least the most important of them, who are maintained in their places by the money of the combines. But President Roosevelt making a stump speech and Roosevelt as president may be entirely different persons.

Coinage of Silver.

Under the Republican administration the coinage of silver has for some time exceeded the coinage under the Bland act, and has been a great cause of the large miscellaneous receipts of the treasury, for as this stock of silver is coined the profit or seignorage is applied to that fund. The silver now being coined is the former profit or seignorage from purchases of silver, and the volume of money in circulation is being not only inflated to that extent, but also by the double inflation of the seignorage on the seignorage. In this the Republicans have been more wise than the Cleveland administration was, when Mr. Cleveland vetoed the bill for the coinage of silver seignorage. It is also a strong indorsement of the Democratic financial position for the enlargement of the currency in circulation.

Railroad Pass Evils.

The attempt of the railroads to reform the pass system to even include politicians, congressmen and state legislators will be, if faithfully carried out, one of the greatest reforms ever accomplished. But the giving in lieu of passes books of fifty trips, like the Pennsylvania railroad does, must also be abandoned. The retaining of political lawyers with large fees to lobby in their interest and pack caucuses and conventions for their favorites must likewise cease or the public will soon discover that the reform is merely to cut off the small fry and still continue to favor the big fish.

Uncle Sam Paid the Bill.

Cablegrams to the Philippines are expensive, so Colonel Heistand, who seems to have been more economical in his private expenditures than those he made for the government, charged up the hemp scandal messages to Uncle Sam. One message cost $49.61 and another $58.12, so it was not such a small steal either.

Neely's Case Arranged?

And now it is Neely who is kicking at the law's delay, so that he must think that his "pull," which is said to be Hanna and Heath, has it all arranged to save him.

Taxing the Farmer.

Perhaps when the plow trust turns out a furrow from the farmers' pocket they will give more attention to the ticket they vote on election day.

Got the Finest.

Considerable comment has been aroused by the unusually artistic posters and lithographs that are used to advertise Frank Keenan's production of "Hon. John Grigsby." The work on them is indeed far above the ordinary. The original designs of several of them were made by Hamilton King, one of the illustrators of the New York publication, Life. Another of the posters is a reproduction of a photograph by Gertrude Kasabier, a photograph whose prints won medals at the Paris exposition.

A CHARMING EVENT.

Last evening at the home of Mr. and Mrs. McGreivy, of North street occurred a Holow Een surprise in honor of their daughter, Miss Anna, who proved an able little hostess. Games were the feature of the evening and at 10 o'clock a delicious lunch was served to which the little folks did full justice. Those present were: Louise Gremling, Cecilia Stein, Stella Fleck, Mary Miller, Blanch Buckhouse, Nellie Bdesman, Maggie O'Connor, Josephine Lyons, Alice Mack, Rose O'Connor, Margaret Curren, Amber McGreivy, Winnie Mack, Anna Stein, Florence McGreivy, and Anna McGreivy.

Night Force—East of Main, north of Wayne, Grant; Wayne to High, Gardner; High to river, Sullivan; river to Kibby, Judy; south of Kibby, Armstrong; west of Main, north of Wayne, Miller; Wayne to High, Patton; High to river, Newbrecht.

On Suspicion.

Officer Grant arrested J. W. Trash at the C. H. & D. station this morning at 3 o'clock on suspicion. Harry McCrady was arrested by officer Jackson at 7:30 o'clock last night on south Main street, also on suspicion.

George Hartman, claiming his home as Wapakoneta, was arrested by officer Fenstermaker last night at about 10 o'clock. Hartman was in the Haim saloon on east Wayne street and made a flash of a $600 note. He is still awaiting the pleasure of the mayor.

Dangerous.

The small boy went one step further than his older brother ever dared in his Hollow Een antics last night and exposed himself to severe punishment through law by plugging several switches of the street railway line. In several instances traffic was seriously delayed and at a time too, when the rain came down the hardest. Then there was danger of jumping the track and injuring someone. It would not have been quite so funny a trick to some of the young culprits had they been caught by the police. It is not too late yet for somebody to receive the punishment due him.

Hit Being Made by Arion Quartette.

The Former Lima Orchestra Has All It Can Do Playing for Toledo Social Affairs.

The Arion Qquartette, composed of Charles DeVoe, Geo. W. Raynes, Glen R. Crum and James H. Doling, came down from Toledo this morning and will play at the Buffalo minstrels this evening. The boys since leaving Lima have made a big hit in Toledo, and are playing for the swellest events given in that city. They furnish the music for the Toledo club's magnificent banquet and the Toledo Blade has the following reference to the quartette's work at the general assembly of the Polytechnic students:

"The general assembly of the Polytechnic students this afternoon, which was intended to be a literary affair, was changed to a concert which proved to be a veritable feast of music. A program of rare excellence was furnished by the Arion Quartette, composed of Charles DeVoe, harp; George W. Raynes, 'cello; Glen R. Crum, violin, and James H. Doling, flute. The program included selections from "King Dodo;" intermezzo, "Cavalleria Rusticana;" sextette from "Lucia di Lammermoor;" solo for 'cello, "Serenade Barcarolle;" Faure's "The Palms," and intermezzo, "Salome."

Every number was encored. A more appreciative audience was never assembled."

The road when completed, will be one of the finest in the country.—St. Marys Graphic.

White Smoke from Soft Coal

Round Oak Furnaces have large feed doors, burn wood or coal; but whatever they burn, give greater heat than any other furnaces, because all the gases and nearly all the smoke is consumed. The smoke is white from a Round Oak Furnace burning soft coal; that means no waste fuel. The principle is not new, but the application to the Round Oak is new—in that no holes are cut through the fire pot.

I was not subject to such troubles, and such a severe attack coming on so suddenly rather alarmed me. I could hardly stoop on account of my back being so painful and if I sat or lay in any one position my back ached severely. I was in pretty bad shape when I was advised to try Doan's Kidney Pills and I procured a box at Wm. M. Melville's drug store and used it. Jumped on a Ten Penny Nail.

The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by Wm. M. Melville, old post office corner.

Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. ELY BROTHERS, 56 Warren St., N.Y.

STOKES FEUD ENDED.

After Years of Estrangement the Cousins Are Reconciled.

THEY SHAKE HANDS AND FORGIVE

Touching Meeting Between Edward Stokes, Who Is Thought to Be Dying, and W. E. D. Stokes—Pretty Octoroon, It Is Said, Brought About the Reunion.

After years of bitter litigation and a feud of the utmost intensity W. E. D. Stokes has become reconciled to his cousin, Edward S. Stokes, says the New York World. Rosamond Barclay, the pretty octoroon who calls herself the wife of Edward Stokes, was, her brother says, the means of bringing about a reconciliation at the bedside of the man now believed to be dying.

Ed Barclay, the brother, said that his sister Rose urged Mr. Stokes to make friends with his cousin, W. E. D. Stokes.

W. E. D. Stokes confirmed the report that he had made friends with his cousin.

"One cannot bear hard feelings toward a dying man," he said.

Mr. Stokes refused, however, to say that there would be no more litigation between the two.

His account of the meeting differs from Ed Barclay's statement. He said that when he heard that Edward was ill he sent him a sympathetic letter, which Edward answered by a note inviting him to call.

"We met and shook hands and buried our grievances," he added.

W. E. D. Stokes said he knew Miss Barclay, but never had heard of her marriage to his cousin.

"I know nothing of any suit that Miss Barclay proposes to begin to prove her right to the name of Stokes. I know nothing of any marriage between her and Edward S. Stokes. I do not think she will sue a dying man."

This statement was made by Lawyer John Delahunty at his office in the St. Paul building. Mr. Delahunty was named by Miss Barclay as her counsel in the suit she said she proposed to bring to prove herself Mrs. Stokes.

"Neither Miss Barclay nor any member of her family has been to me in reference to the alleged suit," continued Mr. Delahunty.

Ed Barclay, brother of Miss Barclay, is in Mr. Stokes' employ as superintendent of a string of trotting horses. Ed Barclay said that the marriage of his sister and Mr. Stokes took place last year in Canada. He said that neither he nor his mother was present at the ceremony.

It was while traveling in Canada with the Barclays that Mr. Stokes became seriously ill and expressed the belief that he was going to die. It was then that the whole party returned to the house at 269 West Seventy-ninth street, where they had lived for more than a year.

CARE OF IMMIGRANTS.

Powderly Thinks There Should Be Some Improvement.

Commissioner General Powderly believes that one reason why we have so much trouble in this country with our immigrant class is that we treat them so shabbily on their entrance into this country, says the Washington correspondent of the New York Evening Post. It has long been a pet notion of his that the government should print a little book and have it translated into all the known languages spoken by immigrants, containing a picture of the American flag, with an account in simple terms of what it means and stands for; the text of the constitution of the United States; an abstract of our naturalization laws and a few words of welcome and advice, especial pains being taken to remind the immigrants of the wisdom of learning the English language.

A copy of this book in the appropriate tongue he would give to every alien landed on our shores. He regards the present habit of treating newcomers and prospective citizens as if they were so many cattle as responsible for some of the lack of right feeling which we find among men who have sought this country for freedom from the troubles that compassed them at home. He thinks that if we admitted only those immigrants whom we were glad to have and then showed them that they were welcome it would start them on their career as Americans with a somewhat different feeling toward the land of their adoption.

Sarah Grand on Yacht Races.

"I was sorry not to see the yacht races between the Columbia and the Shamrock," said Sarah Grand, the English author, in an interview with a New York Sun reporter the other day. "We would be glad to have an English yacht lift the cup, of course, but we could not feel very sorry to lose to such generous rivals, especially as we have wanted to wipe out the memory of Lord Dunraven's wretched behavior. That has been a sore memory to all fair Englishmen."

Edits a Magazine In His Barn.

Professor L. H. Bailey, professor of agriculture and horticulture at Cornell university, is the editor in chief of the new magazine called Country Life. He has decided to make the magazine better reflect the meaning of its title by fitting up his sanctum in his barn. Large and commodious offices have been now prepared in the second story and all of the articles will henceforth be written there. The adjacent garden will also be used in connection with the editorial work.

Pleasure Versus Pain.

It is said that "no one knows pleasure until he has known pain." If this is so, what pleasure there must be in store for the Rheumatics! It is absolutely impossible, however, for them to know pleasure until they get rid of their Rheumatism. The surest way for them to do this is to use Ath-lo-pho-ros. It has given pleasure to over 50,000 people by curing their Rheumatism. It will give pleasure to everyone that uses it. One bottle of Ath-lo-pho-ros will give immediate relief. A few bottles will cure. It is folly not to try it. After the first bottle you will know pleasure as you have known pain.

CITY

(Continued from 2d page.)

sense of unity, of oneness, is permeating the mass, and as this light is dawning we see the disappearance of the instruments of torture and hate and revenge, and we note the gradual rising of the Son of Righteousness with healing in His wings.

Perhaps it will be decades—maybe centuries—perhaps long ages before GAL—THREE— ..... the world mind will realize that the two principles of hate and love cannot be mixed: that if we accept the one, we must reject the other: but it is comforting to reflect that those of us who believe in love may have the joy even here and now of standing true to our convictions and thus adding our mite to the forces that are hastening the quick coming of the better day.

Finally let me call attention to the one argument unanswerable above all others, as it seems to me, that tears away the thin veneer of hypocrisy and exposes the entire fraud that envelopes our whole system of punishment for crime, as it is practiced today. None of us has any real faith in the healing power of prison cells; none of us really believe that there is any sort of good that comes out of locking men up in prison cells, where they are virtually doomed to a slow death because there is not air enough to sustain the life of a dog; none of us believe that any one ever is or ever was or ever can be made better by being locked up in a prison, and we continue the practice really for the same reason that women wear street sweeping skirts—because it is the fashion.

But, you say, "It is easy to make sweeping statements; where is your proof for all this?" The proof is found in the overwhelming fact that you may search the United States over from end to end, rake the civilized world with a fine tooth comb, inquire of all the wardens, the jailers, the policemen, the sheriffs, the hangmen, the executioners, the governors, the presidents, the mayors, the preachers, ask the best or the worst of us if, in event that one of our own children is overtaken in a fault, is convicted of a crime, we would prescribe a prison cell for him or her; and we shall find that no matter how long we have been prescribing this sort of remedy for other people's children, no matter how wisely we have talked of our splendid system of reformation, that man or women does not live who would prescribe as a remedy for crime for his own son or daughter a term in the penitentiary, a workhouse or a jail.

This attitude is so contradictory to all reason that, to my mind it is conclusive. If I find a child afflicted with a disease and I know of a remedy that is soverign, I tell it to you and your child is restored. You would think me singularly inconsistent if later you should discover my child suffering with the same disease and I did not apply the remedy that I had recommended to you. We must learn to prescribe a remedy that, at least, will have the virtue of faith behind it. It is useless to administer remedies that we do not believe in. For my part, I believe in love, and distrust hate now, here and hereafter for all time.

"For I am in love with thee:
For love is life, a light, a brightness from above,
And hate is death, a smoke, a blackness from the abyss
Where unseen serpents coil and hiss,
Who preaches otherwise than this,
Betrays the Master with a kiss."

STOLEN FROM A COURT.

Ton of Silver Bullion Used as an Exhibit In a Case.

Omaha, Nov. 1.—A ton of silver bullion has mysteriously disappeared from the criminal courtroom. The silver a few days ago figured as an exhibit in a junk-stealing case, and had been left in the courtroom awaiting such time as the proper owners should claim it. The junk dealers were tried and acquitted on a charge of having bought stolen property. The janitor says a dray drove up to the building and that four strong men carried the bars away. Judge Baker, who presides over the criminal court, is much perplexed over the matter, and is taking steps to unearth the whereabouts of the metal. It was "base" bullion, worth something over $1,000.

International Rowing Contest.

Dublin, Nov. 1.—Baron O'Brien, lord chief justice of Ireland, who was greatly interested in the recent rowing contest at Killarney between the crews of the Pennsylvania and Dublin universities, has announced his intention to offer a cup for the international rowing competition in connection with the Cork exhibition next year. It is expected that the United States, France, Germany and Holland will send crews.

Emperor a Statesman.

New York, Nov. 1.—Andrew D. White, ambassador to Germany, sailed on the Deutschland after a fortnight spent in this country on private business. Before sailing Ambassador White paid a tribute to the German emperor, saying: "The Americans do not know the emperor. Those of us who know him know that he is a statesman. His control over men shows his great force and ability."

Dr. Burnett Indicted.

Chicago, Nov. 1. — The grand jury voted an indictment against Dr. Orville Burnett, charging him with murder as an accessory before the fact. Dr. Burnett was with Mrs. Charlotte Nichol when the latter committed suicide at a hotel recently, alone fulfilling an agreement which Burnett says they made to die together rather than be separated.

Plague at Glasgow.

Glasgow, Nov. 1. — The bubonic plague has reappeared here during the week. Four suspected cases were removed from the Central Station hotel, belonging to the Caledonian railway, and one died. The hotels have been closed and all guests have been warned to leave.

Oil Inspectors Indicted.

Chicago, Nov. 1.—Robert E. Burke, former city oil inspector, and Max Prager, Burke's former assistant, were named in indictments voted by the grand jury. They are charged with making false reports to the city comptroller of fees collected.

Earthquake.

Lowell, Mass., Nov. 1.—A seismic disturbance of several seconds duration was felt in the higher elevations of the city. In one section houses trembled to such an extent that crockery and glassware were broken.

PRESIDENCY OF CUBA

Coveted by General Bartholome Maso, Who Announces His Candidacy.

STIRS ESTRADA PALMA'S PARTY.

Strong Bid Made For the Autonomist, Spanish and Negro Vote—Platt Amendment and Other Matters Aired.

Havana, Nov. 1. — General Bartolome Maso surprised Senor Tomas Estrada Palma and the latter's supporters by coming out with a manifesto declaring himself a candidate for the presidency of Cuba. He makes a strong bid for the autonomist, Spanish and negro vote. He says it is necessary to associate with the new republic the Autonomist party, "whose knowledge of the needs of the country is undeniable, and whose work for Cuba's welfare under Spanish rule was such as to establish its leaders as men of sound judgment. The military government," he continues, "has ignored this element, not considering it necessary. It is also desirable to associate in the work of forming the republic the colored race, which is an essential factor in our social existence, and has proven an orderly element even amid great suffering. We can not abandon these heroes now by denying them participation in our political personality. We must have with us, too, the Spaniards, who are the nerve of our existence. The future of Cuba can not be to them a matter of indifference.

"The Cubans today are a poor people. We have lost a lot of time during the intervention. The element around the military governor has forgotten the duty of reconstruction. Where much might easily have been accomplished nothing has been done. It is necessary to reorganize the various departments on an economical basis."

Referring to the Platt amendment, General Maso observes: "It is obvious that absolute independence of government is not to be established, for the unavoidable demands of foreign policy must be satisfied. The treaty which the Cubans are going to draw up with the United States should be the subject of immediate attention in order to carry on the government intelligently. In the treaty we shall have to try to get concessions from the United States."

Blown Out to Sea.

St. Johns, Nov. 1.—Three schooners were driven ashore on the Labrador coast during a gale. One was laden with the families of fishermen returning from a summer sojourn on the coast. The women and children were rescued with great difficulty, the schooner being beached at Sandy Spit and the women and children being set ashore with ropes. In all three cases the crews were saved. Two other vessels, one carrying a Catholic priest who had been making a sacerdotal visitation, were driven seaward and have been missing for 10 days. The steamer Glencoe went in search of them, but without result. Twelve lives are involved, and it is feared that all have perished.

A Defective Bomb.

New York, Nov. 1.—Three persons were injured and 50 or more windows were broken by the premature explosion of a dynamite fireworks bomb. It was just a moment or two before a big Tammany hall ratification meeting commenced in the Grand Central palace, and the streets were crowded. Many bombs had been successfully fired, and that which did the damage left the mortar all right, but instead of exploding high in the air it burst before it had got above the housetops. The instant of the explosion there was a clatter of falling glass from all sides and the crowd fled to shelter. The three persons injured were boys, and their hurts are not serious.

Public Land.

Washington, Nov. 1. — The annual report of Commissioner Hermann of the general land office says that 15,562,796 acres of public land were disposed of during the last fiscal year, an increase of 2,168,908 over the previous year, which was the banner year in public land sales. The net surplus from the entire land and forest administration is $3,458,442. The report refers to the large number of prosecutions begun in Idaho and Montana for perjury and subornation of perjury in entries of land under the timber land act.

Boys Publicly Whipped.

Akron, O., Nov. 1.—Judge G. M. Anderson of the probate court ordered six boys to be whipped for stealing chestnuts. It was that or the reform farm, the judge said. Sheriff Kelley acted as referee while the fathers of the youngsters did the whipping, one after another.

Work of Train Wreckers.

Rock Springs, Wy., Nov. 1.—The authorities are investigating the cause of the wreck on the Union Pacific at this place, and it is said arrests will be made soon. It is alleged that the switch had been thrown for the siding and locked, and the switch lights extinguished.

Both Dead.

Constantinople, Nov. 1.—It is again rumored that Madame Tsilka, the companion of Miss Stone, and her child (born since her capture by the brigands), are dead.

Block Gutted.

Denver, Nov. 1.—A dispatch from Cheyenne, Wy., reports the burning at New Castle, Wy., of an entire block of buildings, including the postoffice. Loss $100,000.

A Daily Nuisance.

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its earlier stages catarrh is more of a nuisance than a menace to the general health, but sooner or later, the

disease extends to the throat, bronchial tubes and even to the stomach and intestines.

Catarrh is essentially a disease of the mucous membrane, the local symptoms being a profuse discharge of mucous, stoppage of the nostrils, irritation in throat, causing coughing, sneezing, gagging and frequent clearings of the throat and head.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrhal taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements and which so far has been remarkably successful in curing catarrh is Stuart's Catarrh Tablets.

These tablets act upon the blood and mucous membranes only. They can hardly be called a secret patent medicine as they are composed of such valuable remedies as Sanguinaria, Hydrastin, Eucalyptol and similar cleansing antiseptics which cure by eliminating from the blood and mucous surfaces the catarrhal poison.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges taken internally, allowing them to dissolve slowly in the mouth, in this way they reach the throat, fauces and the entire alimentary canal.

If desired, they may also be dissolved in water and used as a douche, in addition to the internal use, but it is not at all necessary to use a douche; a few of them dissolved in the mouth daily will be sufficient. However, when there is much stoppage of the nose, a douche made from these tablets will give immediate relief, but the regular daily use internally of these tablets will cure the whole catarrhal trouble without resorting to the inconvenience of a douche.

Dr. Bement states "that the internal treatment for catarrh is rapidly taking the place of the old plan of douching, and local application and further says that probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tablets, as no secret is made of their composition and all the really efficient remedies for catarrh are contained in this tablet."

Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized packages. Ask your druggist and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market.

To Preserve the Palisades.

Charles W. Leavitt, Jr., a landscape engineer, has been engaged by the palisades interstate park commissioners to make a study of the possibilities of preserving the palisades and how best to treat them in laying out the proposed park, says a New York correspondent. Mr. Leavitt will at once begin with a corps of assistants to make the necessary surveys and investigations. "It is the intention of the commission to take the matter of laying out the proposed palisades park in a most careful way," said Mr. J. Du Pratt White, secretary of the commission, "and to make such improvements that the palisades may forever be preserved. Next spring we shall begin active work."

VOTE

On the Location of the New Building

For the High Schools of This City

Will be Taken in South Lima on Election Day—Next Tuesday.

A Clever Proposition Made by the Members of the School Board on the South Side—Other News.

The location of a new high school is of so much importance to south Lima residents that the local members of the board of education, Messrs. Cramer, Fenwick, Spiker and Bates, have decided to have a definite expression from their constituents. At their own expense these gentlemen will provide tickets for all the voters in the Fourth and Fifth wards on election day whereby they can designate whether they want the building located in the north or west portions of the city or centrally. The plan is one that will undoubtedly be satisfactory to all concerned. This vote will be a guide for the members whenever the matter is brought up for their consideration.

The time being propitious F. P. Odell, the south Main street inventor has composed a humorous descriptive poem of the Sampson-Schley controversy in which he not only gives expression to personal sentiments but those of the people at large. There is a moral to the production worthy of emulation. Though composed simply for personal gratification the poem would well stand the test of publicity.

Some friends of Harry Carr, locked him in a stairway on south Main street last night. The joke came near terminating seriously for him. Mistaken for a burglar he was about to be roughly treated when his companions came to the rescue. A lady in the apartments was about to pour hot water on him when the mistake was discovered.

Later, they all assembled at Miss Sparling's, where various hollow'een observances enlivened the occasion. Games with refreshments were specially enjoyed.

At his home on south Central avenue, Murray Fee entertained friends last night. A novel hollow'een program was rendered to the pleasure of those present. Festivities were continued until a late hour. OLD WARSHIP DESTROYED.

The Minnesota of Civil War Fame Broken Up For Metal.

The torch has been applied to the old warship Minnesota, taken to Eastport, Me., says a dispatch from that place, a few months ago to be broken up for the metal in her hull, and the woodwork has been almost entirely consumed.

The Minnesota was built at the Washington navy yard in 1855 and was one of the finest steam war vessels of her day, mounting a battery of forty guns and carrying a complement of over 200 officers and men. Her first appearance in the civil war was in Hampton Roads as Commodore Stringham's flagship, when she was saved from destruction by the timely appearance of Ericsson's Monitor, which drove back the Merrimac after the Cumberland had been burned and the other ships of Stringham's fleet had been scattered.

She rendered continuous service during hostilities on the Atlantic coast blockade and after the war showed the flag on peaceful cruises in most of the ports of the world. For the last fifteen years, since the new steel ships began to multiply, the Minnesota has spent most of her time in navy yards, her deck roofed over, like a receiving ship, and her masts cut out. Recently she had been utilized as an armory for the Massachusetts naval militia, but with the rapid modernization of the Boston yard and the necessity of making use of the space she occupies the Minnesota has been formally condemned and her name stricken from the naval register.

KERMIT'S EXPERIENCES.

Young Roosevelt Gets a Pony and Incidentally a Tumble.

Kermit Roosevelt got a new pony and a tumble recently. The pony is the gift of Secretary of the Interior Hitchcock, says the Washington correspondent of the New York Herald.

There was no horizon to the delight experienced and expressed by Kermit when he first beheld the pony. He received the introduction at Mr. Hitchcock's home. He insisted upon accompanying it to the White House to show it to his parents. The pony, with a blue saddlecloth and a new saddle, walked between Master Roosevelt and the coachman. Kermit lost his hat in the excitement, but he did not seem to care. His little head just bobbed above the pony's back as he ran beside it, occasionally placing his hand upon its side to reassure himself of its presence.

When he reached the grounds behind the White House, he insisted upon mounting the pony. The pony jumped, but Kermit held on, though it was apparent he was having trouble in keeping his seat. Suddenly he slipped to the ground. The coachman ran to his rescue, but found that Kermit had dropped off because the saddle had begun to slip.

The saddle girth was tightened, and then, to the evident satisfaction of his little sister, who had joined the crowd of onlookers, Master Kermit jumped again on the pony's back and cantered to the rear entrance of the White House.

The pony, a beautiful dapple gray Shetland, came from Virginia, where it was raised upon the estate of Mrs. Shepley, whose son married Miss Hitchcock. It received first prize at the horse show in Wheeling, W. Va.

While Kermit was riding his pony in the White House lot little Archie was riding the banisters in the White House. The particular railing chosen for his operations was that of the staircase leading to the business offices. His companion was his black dog Jack, who enjoyed the sport quite as much as his little master. The descent was quickly accomplished. The ascent, though somewhat more difficult, was performed in safety.

NIGHT

Of Fun for the Youngsters.

Made Merry

In All Parts of the City on Hallowe'en.

Party of Young Girls were Arrested by Officer Neubrecht

For Throwing a Handfull of Cornmeal in Pete Boose's Eyes, Which Temporarially Blinded Him.

Hallowe'en, out of which the mischievious American youth constructed a preceding night of fun which placed the front gate in danger, has passed, and the property owner can now lay down to sleep without fear of a similar disturbance for another year.

Last night the mischief makers were out in full force and in spite of the precaution taken to put on a number of extra police, with strict orders to enforce discipline, the boys and girls had plenty of opportunity to make merry, and in not a few instances, as is generally the rule they went beyond bounds.

One instance of this kind caused momentary excitement at the police station when officer Neubrecht came strolling in with several badly frightened young girls. Several who witnessed the arrest were decidedly indignant and expressed themselves in forcible terms, but the girls were taken to the police station and turned over to the tender mercies of the Sergeant Goebel.

When the case was explained it developed that the girls had a sack of corn meal, the contents of which they were scattering on passers by to their own amusement, but against the good will of those assaulted. A hand full of the stuff was thrown into the face of Pete Boose, who was not prepared for it, and his eyes were filled with the fine dust, momentarially blinding him and causing intense pain. It wos necessary for him to have his eyes dressed before relief came, and although his eyes are badly inflamed the injury is not of a serious nature.

Officer Goebel read the girls a curtain lecture and then ordered them to go home. They did not wait for any further ceremony. The act provoked arrest, but the deed was committed purely in a spirit of fun and no harm was intended.

HOLDS

The Railroad Company to Blame

For the Death of J. H. Van Warmer, Who was Recently Killed at St. Marys.

Justice of the Peace Chas. F. Bullock, acting coroner, of St. Marys, held an inquest upon the body of the late J. H. VanWarmer, examined witnesses to learn the cause of the accident and makes the following report:

"Upon hearing the evidence I do find that the said J. H. VanWarmer came to his death by being run over and killed by a switch engine of the Lake Erie & Western railroad company at what is known as the Mott crossing of Webb street and Lake Erie & Western railroad; that said crossing is within the limits of the corporation of St. Marys, Ohio; that the engine that killed him was running at the rate of twenty or twenty-five miles an hour; that the crossing is a dangerous one, and that box cars are allowed to stand so near the road crossing that it is impossible for a person crossing the tracks at Webb street to see the engine or cars until it is upon them; that it was gross, if not criminal, carelessness upon the part of the person or persons on the engine at the time (employed of the said railroad company) that caused the death of J. H. VanWarmer.

MADE

Rounds of Their Visits.

In Good Order

Was Everything Found by the Board

Appointed to Inspect the Institutions of Allen County.

Children's Home, Infirmary, Court House and Jail are All Reported in an Excellent Condition.

Matters were particularly quiet in and about the temple of justice today, there being no cases assigned for trial and only two small civil suits placed on the docket.

A document of interest was filed with the county clerk by the board of county visitors, which contains the report made after visits to the various institutions and is given as follows:

To the clerk of the Court of Common Pleas of Allen county, O.:—

In obedience to the direction of the court we, the visiting committee of Allen county, appointed by said court beg leave to submit the following report:

That on the 15th day of October, 1901, we did visit the children's home the county infirmary, the court house and the county jail. Our first visit was to the children's home. We found at the home seventy-four children in a good, healthy condition. We found the buildings all in a good sanitary condition and the surroundings in excellent condition.

Our second visit was to the infirmary. We found at the infirmary eighty inmates. Of this number we found only five invalids. We found everything in good order and in excellent sanitary condition.

Our third visit was at the court house and county jail. We found the court house in good sanitary condition and in good order. We found five prisoners in the jail and in a healthy condition. The jail was clean and in a good sanitary condition and in good order.

Respectfully submitted.

A. M. HARROD, Pres.
JOHN S. O'CONNOR, Sec'y.

The board of visitors met and reorganized, electing A. M. Harrod, president and Jno. S. O'Connor, secretary. The other members of the board are Thos. Duffield, Mrs. J. L. Hughes, Mrs. Amos Young and Mrs. W. E. Grubb.

Suit for Money.

H. W. Lewis vs. Francis Osborn is the style of an action brought to recover the sum of $800 due on a contrast for the building of a house for the defendant in the McDonald addition. The petition says the sum is the third payment which was to be due when the plastering was completed, but which defendant refuses to pay. T. R. Hamilton, attorney for plaintiff.

The second action is one in which D. M. Osborn & Co., manufacturers of a corn harvester sue Cliff Harrod and J. W. Giberson for $125, claiming that a machine was sent according to agreement, but which the defendants have refused to receive. Ridenour & Halfhill represent the petitioners.

Plaintiff Got Damages.

That the jury in the damage suit of George D. Moyer vs. the Lima Electric Light & Power company was not of one accord is evidenced by the length of time it took to arrive at a verdict, the charge being delivered by Judge Cunningham before court adjourned in the evening, and a decision announced shortly after eleven o'clock. The plaintiff sued for $5,000 and was awarded $450.

Naturally, the case will not rest here as the defendant's attorneys will file a motion for a new trial and let the higher courts take a whack at it.

Foreclosure Suit.

A foreclosure suit filed yesterday bears the caption of Sarah Potter Paine vs. Frank O. Parrott in which the plaintiff seeks to recover $500 due on a promisory note dated Sept. 11, 1896 and secured by a mortgage on real estate.
